To Whom It May Concern:

Re.: Change of Zone Application from Walsh Park Benevolent Corporation, Fishers Island, NY (SCTM #1000-9-10-10)

The Fishers Island Development Corporation has enjoyed a collaborative relationship with the Walsh Park Benevolent Corporation since it was founded. In our opinion, Walsh Park has a solid track record of thoughtfully identifying properties that meet its housing criteria, while tastefully considering the surrounding environment in its design development.

FIDCO is supportive of Walsh Park as it explores the best options, aesthetically, financially and practically speaking, for the above-mentioned parcel of land. This potential transaction also has the unique added benefit for the Fishers Island School, in the form of unrestricted revenue for important improvements.

Thank you for your consideration,

Amelia Gary
President
