Subject: Walsh Park Application for zoning change to the school land

To whom it may concern:

I wanted to express the importance for Walsh Park of Fishers Island to receive the zoning change with the Fishers Island School District in order to pave the way for much needed year round housing for Fishers Island residents. Currently, 60+ people live in Walsh Park homes – approximately 25% of the year-round population. 17+ residents serve on the Fishers Island Fire Department, are EMTs, and/or Sea Stretcher volunteers – nearly half the complement of these valuable services. Finally, 14+ residents attend the school which make up almost 40% of the year-round student body. Walsh Park has been around for over 30 years and their impact has been felt throughout the Island. The rising costs of real estate was just one of the major contributing factors to year-round residents leaving. Approving this zoning application will continue to compliment what Walsh Park has stood for over 30 years. I highly endorse this project. Best, Frank Burr
