Subject: Change of Zone Petition submission re: Walsh Park/FI School Property

A concerned Fishers Islander, I wholeheartedly support the letter, written by my neighbors, on January 10, 2020 sent to Scott Russell and the Town Board.

Most of us care deeply for this small yet fragile community and we appreciate that growing the year-round population is key to the Island's future prosperity. However, no one can seriously believe that diminishing the quality of life enjoyed by residents in this neighborhood could be a benefit to the year round community. Isn't the purpose of zoning laws to protect homeowners and residents from just this kind of activity?

I am grateful to the Walsh Park Board for their outstanding efforts supporting the Island and I am certain that they will discover other opportunities for their fine and critical work.

Respectfully submitted,

Lucinda Herrick
