Subject: Walsh Park Application for Rezoning

We never cease to be amazed at how an historical area of Fishers Island, defined here as Fort H. G. Wright, has become a focal point of development proposals. There appears to be little thought of preservation as we approach the 125th anniversary of the creation of the Fort area. We are also concerned about the increased usage of the vulnerable infrastructure. We are, however, supportive of the mission of the Walsh Park Benevolent Corporation, but question the sensitivity of this project to the character of the Fort. To lose this, which is an important part of Fishers Island history, would be sad.
