RE: Walsh Park Zoning Application

Dear Southold Town Board,

As a lifelong year-round Fishers Island resident, I am writing in support of the proposed zone change for the school property on Whistler Avenue. Over 30 years ago, Frank Burr, Brad Burnham, Mark Andrews and others, saw the need for year-round affordable housing and purchased 24 acres of land that was the start of much need project of Walsh Park.

This zone change will enable Walsh Park to purchase the site from the school district. With so little property available on the island, Walsh Park will have this site for future use if needed. As a past Walsh Park Board member, I have great confidence in the Board that if the site should be needed that it will be done in good taste with the best interest of the neighbors and island.

Sincerely,

Kenneth L. Edwards, Sr.
